2.0 Definition

2.1 The National Audit Office defines conflicts as:

A conflict of interest is a set of circumstances that creates a risk that an individual's ability to apply judgement or act in one role is, or could be, impaired or influenced by a secondary interest. It can occur in any situation where an individual or organisation (private or government) can exploit a professional or official role for personal or other benefit. The perception of competing interests, impaired judgement or undue influence can also be a conflict of interest.

The UK has a 'principles-based approach' to conflicts of interest. Behavioural and ethical standards are defined in codes of conduct. Members are expected to act with "integrity" and board members are expected to declare and record conflicts of interest.

3.0 Related Party Transactions

3.1 Trustees will be required to adhere to guidance on RPT as set out within the Academies Financial Handbook and to any updates thereof during the academic year. Related parties include persons and entities with control or significant influence over the academy trust, and members of the same group (e.g. parent and subsidiary companies).

3.2 The above description is not comprehensive. A fuller definition is contained in section 33 of Financial Reporting Standard, appendix 1 of the Charities SORP and outlined in 'Related party transactions: information for academy trusts' on gov.uk

4.0 Financial Interests

This relates to any financial benefits to you (direct interests). This means anything of monetary value, including:- payments for services; equity interests, including stocks, stock options or other ownership interests; and intellectual property rights, including patents and copyrights and royalties arising from such interests. Examples are:

- work in the commercial sector including:- a directorship, employment, consultancy, benefits in kind such as hospitality, payments for speaking engagements and sitting on advisory boards
- Trustees undertaking private consultancy work which may reflect on the work of the Shaw Education Trust
- direct payments from the commercial sector to attend a meeting, conference or event, over and above funding to support reasonable travel, accommodation and attendance costs
- shareholdings or other investments in the commercial sector (unless these are held in a managed fund in which you do not have the ability to instruct the fund manager on the composition of the fund)
- personal payment from the commercial sector to undertake research.

5.0 Non-Financial Professional and Personal Interests

5.1 This relates to any non-financial professional or personal benefit, or non-financial issue that could affect your perceived objectivity. Examples include:

- being an advocate for a particular group or member of a lobbying or pressure group with an interest in education and SEND.

- holding office or a position of authority in a professional organisation or advocacy group.

6.0 Indirect Interests

6.1 Trustees are asked to consider circumstances where there is, or could be perceived to be, an opportunity for a third party closely associated with you to benefit.

6.2 This could be through another person or organisation having a financial or non-financial interest, and potentially benefiting from a decision you may be involved in making through your role on the Shaw Education Trust Board.

6.3 This can include:

- close relatives, close friends, associates and business partners
- your employer

Declaration

- I confirm that the information provided above is complete and correct.
- I acknowledge that any changes in these declarations during the next 12 months (or until I am asked to sign a further declaration) must be notified to SET as soon as possible and no later than 28 days after the interest arises.
- I am aware that if I do not make full, accurate and timely declarations then I may be asked to stand down from the Trust Board. A deliberate failure to disclose an interest could in the most serious cases be treated as misconduct
